STEEL & ALUMINUM WHEELS | DRUMS | HUBS | ROTORS | SLACK ADJUSTERS

# Gunite 3922X Value Plus Brake Drum

## Gunite's Value Plus Brake Drum

Gunite's brake drums are the only drums that are 100% cast and machined by one U.S. company. In addition, as a leader in wheel-end technology, Gunite's Value Plus brake drum is engineered and manufactured to meet the demanding requirements of the heavy-duty trucking aftermarket, at a lower price than OE-original brake drums. You can depend on Gunite's quality, as Gunite brake drums are approved by all North American truck and trailer OEMs.

### SPECIFICATIONS

Part Number	Brake Size	Width of Brake Surface	Pilot Diameter	Bolt Circle Diameter	Bolt Holes	Bolt Hole Size	Wheel Type	Drum Mount	Drum Weight
3922/X	16.5 x 7.00	7.60"	8.78"	11.25"	10	1.00"	Disc	Outboard/HPM	105 lbs.

Features	Benefits
16.5 x 7 (most popular size)	Preferred alternative to off-shore and price-point drums*
Available as factory balanced to 20 in-oz	Improved ride characteristics
1.0" drilled mounting holes	Tighter dimensional control than cast-in holes
Rated up to 24,000 lbs. GAWR	More application coverage
Stackable	Easier storage and handling
Made in the USA	Proven quality and performance, more consistent part-to-part performance

\*For best performance and overall lifecycle costs, always replace with Gunite 3600A®X.
