Gunite 3600A[®] Brake Drum

Gunite 3600A[®] is the recognized market leader in brake drums.

Gunite offers the industry's only brake drums that are 100% cast and machined by one U.S. company in one location. In addition, as a leader in wheel-end technology, it's no surprise the Gunite 3600A[®] brake drum is valued for its quality and performance. Gunite's industry-leading quality and performance can be attributed to our continued investment in world class manufacturing equipment, Lean processes and, of course, our team members. This translates to a more consistent part-to-part performance for the end customer. Independent testing clearly shows that the 3600A[®] has 15% longer life than the primary North American competitor. Gunite's 3600A[®] has been tested and approved using the popular industry Reduced Stopping Distance (RSD) linings. The very same drum is also available in the aftermarket. For best performance and lowest overall life cycle costs, always install the Gunite 3600A[®] brake drum.

Features	Benefits
16.5 x 7 (most popular size)	Preferred alternative to price-point drums
Available as factory balanced to 20 in-oz	Improved ride characteristics
1.0" drilled mounting holes	Tighter dimensional control than cast-in holes
Rated up to 26,000 lbs. GAWR	More application coverage with one part number
Made in the USA	Proven quality and performance, more consistent part-to-part performance
RSD linings tested and approved	Confidence in drum performance using RSD linings

SPECIFICATIONS

Part Number	3600A [®] and 3600A [®] X
Brake Size	16.5 x 7.00
Width of Brake Surface	7.60"
Pilot Diameter	8.78"
Bolt Circle Diameter	11.25"
Bolt Holes	10
Bolt Hole Size	1.00"
Wheel Type	Disc
Drum Mount	Outboard/HPM
Drum Weight	112 lbs.
