Gunite 3922X Value Plus Brake Drum

A Value Drum from the most trusted name in brake drums

Your only single source for industry-leading wheel end solutions.

STEEL & ALUMINUM WHEELS | DRUMS | HUBS | ROTORS | SLACK ADJUSTERS

Gunite's Value Plus Brake Drum

Gunite brake drums are the only made in USA drums that are fully produced in-house without contract manufacturing. As a leader in wheel-end engineering and manufacturing, the Gunite Value Plus drum excels in the demanding requirements of the heavy-duty trucking aftermarket. All this technology is brought to the market at a price lower than OE drums. As Gunite brake drums are approved by all North American truck and trailer OEMs, you can depend on Gunite quality for safety and reliability.

SPECIFICATIONS

Part Number	Brake Size	Width of Brake Surface	Pilot Diameter	Bolt Circle Diameter	Bolt Holes	Bolt Hole Size	Wheel Type	Drum Mount	Drum Weight
3922/X	16.5 x 7.00	7.60"	8.78"	11.25"	10	1.00"	Disc	Outboard/HPM	105 lbs.

Features	Benefits
Optimized lightweight design	Cost effective alternative to the legendary Gunite 3600A®*
Factory balanced to 20 in-oz ("X" version)	Improved driveability with reduced noise, vibration, and harshness (NVH) characteristics
1.0" drilled mounting holes	Tighter dimensional control to improve drum piloting and ease installation
Rated to 24,000 lbs. GAWR	More application coverage than other value drums for improved usage in the field
Integrated stacking tabs	Easier storage and handling to save space in your facility and complete maintenance faster
Made in the USA	Proven Gunite quality and performance, consistency you can count on to reach your destination safely

*Check GAWR requirements before replacing 3600A® with 3922.
