Your only single source for industry-leading wheel end solutions.

STEEL & ALUMINUM WHEELS | DRUMS | HUBS | ROTORS | SLACK ADJUSTERS

Accuride knows how to light-weight and the 65 lb steel wheel proves it

Accuride continues to light-weight its popular steel wheel product portfolio to reduce weight and improve fuel savings for customers without sacrificing performance. Just look at our history. 15 pounds saved per part number over 30 years!

The popular two, five and ten hand-hole steel wheels are now lighter than ever with the five and ten hand-hole wheels weighing in at just 65 pounds each. With the same great features of reduced weight, additional payload and increased ROI, Accuride offers advanced steel wheel technology that provides lasting value unmatched in the industry.

Features	Benefits
<p>Complete line of lightweight steel wheels:</p> <p>51408 - 2HH: 67 lbs.</p> <p>51487 - 5HH: 65 lbs.</p> <p>51637 - 10HH: 65 lbs.</p>	<ul style="list-style-type: none"> Allows additional payload which equals increased ROI Provides fuel savings by reducing weight Helps offset additional weight of emissions equipment
<p>Revolutionary coating technology</p> <p>Steel Armor™ standard, providing a <u>five</u> year warranty against corrosion</p>	<ul style="list-style-type: none"> Powerful corrosion protection Superior finish Reduce refinishing costs Now standard in white, black and gray
