

Gunite GOLD® Series Brake Drums

Made in the USA

Lightest weight full cast,
high performance brake drums

Your only single source for industry-leading wheel end solutions.

STEEL & ALUMINUM WHEELS | DRUMS | HUBS | ROTORS | SLACK ADJUSTERS

Why choose Gunite GOLD® lightweight brake drums?

| Features | Benefits |
|---|---|
| Lightest weight full cast drums - 16.5x7.00 size weighs only 94 lbs | Save up to 170 lbs. vs standard full cast drums on a typical tractor/trailer configuration |
| Optimized design | The same superior performance characteristics Gunite standard cast drums are known for in a lightweight package |
| Increased service life | Our unique lightweight alloy has shown in field testing to provide longer drum life without a decrease in lining life |
| Reduced operational noise | Improved drivability with reduced noise, vibration, and harshness (NVH) characteristics compared to other lightweight drums |
| Full line of sizes available | Wide range of application coverage for direct replacement of full cast and steel shell composite brake drums |

Gunite GOLD® Cross Reference Guide

| 9019X | 16.50" x 8.62" | 53-123581-002 | 90414B | 66854B | 107 lbs | 3807X |

Note:

Gunite GOLD® drive and trailer axle drums are approved for applications through 23,000 lbs. single axle GAWR (46,000 lbs. tandem axle GAWR).

Gunite GOLD® 15.00x4.00 steer axle drums are approved for applications through 14,000 lbs. GAWR.

When utilizing Gunite GOLD® lightweight brake drums in lieu of standard brake drums, it may be necessary to replace the disc wheel bolts in order to achieve the proper stud stand out. Contact your Accuride representative to determine the correct stand out for your application.
