

38 LB Aluminum Wheel
Newest Addition to Accu-Lite® Aluminum Wheels

Accuride quality at a lower weight

The combination of Accuride's unique manufacturing processes, with the superior performance of our proprietary alloy, allows Accuride to control the grain structure through the wheel and improve fatigue resistance. This technology has enabled Accuride design engineers to continue to make lighter weight wheels to help improve fuel savings without sacrificing performance.

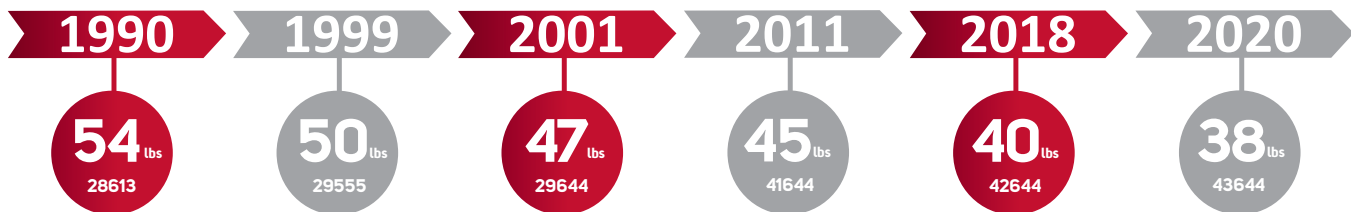

SPECIFICATIONS

Part Number	Wheel Size	Bolt Holes	Bolt Circle (mm)	Center Bore (mm)	Offset	Weight (lbs)	Max Load (lbs)	Max Inflation (psi)
43644	22.5 x 8.25	10	285.75	220	6.59"	38	7400	131

Experts in lightweighting

Accuride has a long history of lightweighting wheels to achieve fuel savings and increase return on investments.

Multiple finish options

Accuride offers a standard polish finish for all aluminum wheels and premium polish and surface treatment options when only the best will do.

Polished Shine	Code	Specialty Finishes	Code
Extra Polish Premium polish on both sides	XP	Accu-Armor™ Best protection for harsh environments	R
Standard Polish The best value	SP	ProShield Black Custom matte black finish	XB
Extra Polish with Accu-Shield® Combination of superior polish and protected finish	XPC		
Standard Polish with Accu-Shield® Easy to maintain with a protected finish	SPC		

Your only single source for industry-leading steel and aluminum wheels.
