

Steel Wheel Color Options
Premium Performance Comes Standard

Powerful corrosion protection

Steel Armor™ solves your wheel-corrosion headache. Think premium rust protection. More miles of service over the life of your wheels. A superior finish that looks great and lasts longer, reducing maintenance costs. Our proprietary powder coat process and technology makes all this possible. And it comes with a standard five year warranty¹! Only from Accuride.

Zinc Phosphate

It all starts with our unique formula of tri-metal zinc phosphate – the same fundamental high-performance chemistry used by leading automakers – which prepares the metal for maximum adhesion.

Epoxy E-coat

Next, we apply our best-in-class cathodic epoxy electrocoat (e-coat) optimized for sharp edge and overall corrosion protection.

Powder Coat

Finally, we spray on an exacting application of our premium powder coat, formulated exclusively for Accuride to meet the tough demands of the heavy truck environment.

Custom colors

In addition to industry leading corrosion performance on select Steel Armor steel wheels, Accuride is able to offer standard size steel wheels in ANY color of your choice. Please contact your Accuride Sales Representative to ensure custom color matching and to confirm price and lead time.
