

Accu-Lite® Aluminum Wheels
Built for Performance, Designed to Last

Accuride quality at a lower weight

As a leader in wheel technology, Accuride has once again set the standard for aluminum wheels by expanding our Accu-Lite® family of wheels to include four lightweight aluminum wheels. Accuride has patented a new aluminum alloy to reduce the weight of four part numbers by 2-4 pounds each; a 5-7 percent improvement overall. The new alloy employs an enhanced grain structure that improves strength so less material is needed.

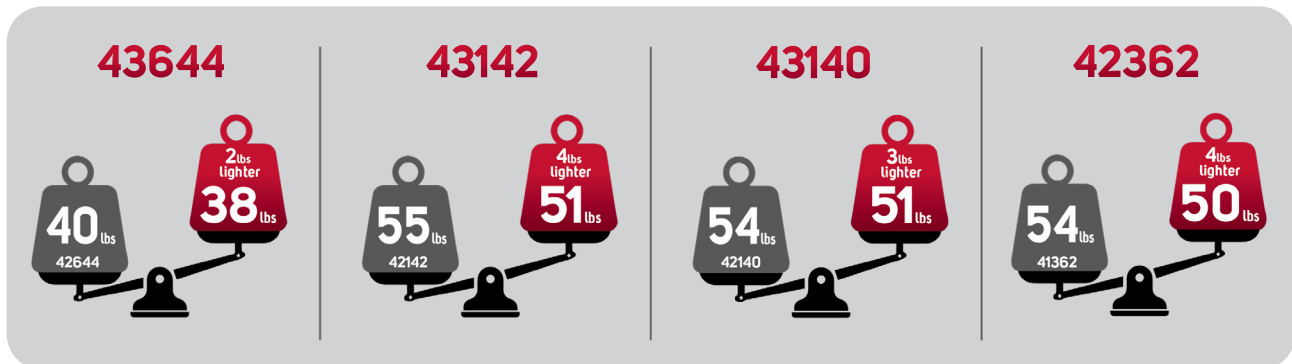

SPECIFICATIONS

Part Number	Wheel Size	Bolt Holes	Bolt Circle (mm)	Center Bore (mm)	Offset	Weight (lbs)	Max Load (lbs)	Max Inflation (psi)
43644	22.5 x 8.25	10	285.75	220	6.59"	38	7,400	131
43142	22.5 x 14.00	10	285.75	220	2.00" ⁽¹⁾	51	12,800	131
43140	22.5 x 14.00	10	285.75	220	0.50" ⁽¹⁾	51	12,800	131
42362	24.5 x 8.25	10	285.75	220	6.59"	50	7,400	131

⁽¹⁾ Value listed is Outset.

Weight savings

Lighter weight wheels helps improve fuel savings without sacrificing performance.

Multiple finish options

Accuride offers a standard polish finish for all aluminum wheels and premium polish and surface treatment options when only the best will do.

Polished Shine	Code	Specialty Finishes	Code
Extra Polish with Accu-Shield® Easy to maintain, protected finish	XPC	Accu-Armor™ Best protection for harsh environments	R
